

SAINT MARY'S COLLEGE OF CALIFORNIA

ENGINEERING 3 + 2 PROGRAM

The following Diablo Valley College courses are currently being accepted as fulfilling lower division major requirements at Saint Mary's College. The 3 + 2 Engineering Program offers students the benefits of a liberal arts education while allowing them to pursue an engineering degree. Students spend their first three years (if entering from high school, transfers generally will spend 1 ½ to 2 years at Saint Mary's). The final two years are completed at an engineering school approved by the Program's Director. Saint Mary's College currently has agreements with the following engineering schools: University of Southern California and Washington University in Saint Louis, Missouri. Upon completion of all academic requirements students are granted two degrees: A bachelor of arts from Saint Mary's College and a bachelor of science in engineering from the university they have chosen for completing the final two years of the program.

NOTES: In addition to the General Education requirements other courses may be required or recommended for entrance into particular engineering majors. The student must consult with the 3+2 Engineering Program Director regarding his/her courses of study (see p. 92 in 2008-2009 catalog).

A transfer student must present a record with a minimum of 23 transferable semester units or 34.5 transferable quarter units and a minimum GPA of 2.3 for admission to Saint Mary's College. To transfer with junior status a student should have 60 or more transferable units. All courses must be passed with a grade of "C-" or higher to be considered a transferable course. Students at Saint Mary's College of California are required to complete a minimum of 36 course credits (APPROXIMATELY 120 UNITS) toward a Bachelor's Degree. California Community College credits are accepted at the rate of 30 semester units = 45 quarter units = (9 COURSE CREDITS).
