

# LiveSafe®

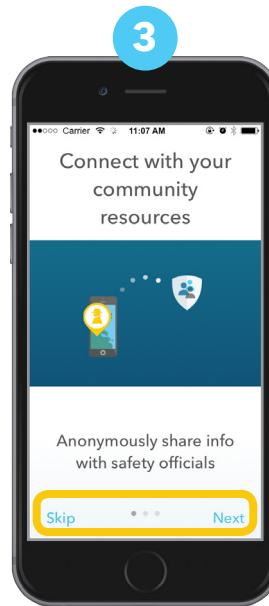

## Download LiveSafe for iOS: Step-by-Step Guide

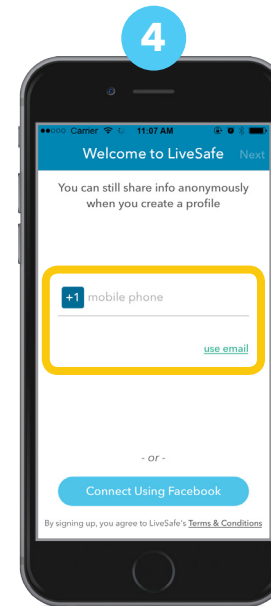

**Open App Store**  
Open the Apple "App Store". Tap the "Search" icon at the bottom.

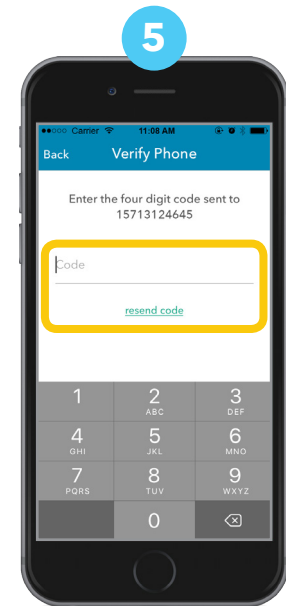

**Download LiveSafe**  
Search for & download "LiveSafe". Tap "Open" to start registering.

**Tutorial**  
Swipe to the left to start. Read the tutorial or continue to registration by tapping "skip" at the bottom.

**Start registering**  
Enter your mobile phone number or email address.

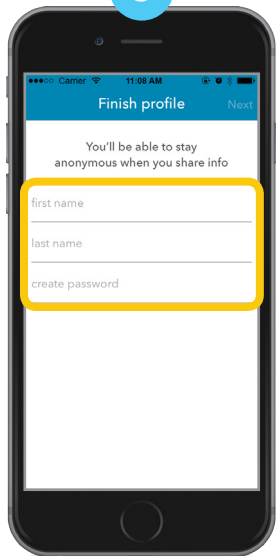

**Verify your contact**  
When prompted, verify your account for the registration method chosen. Either enter the four digit code sent to you via SMS text message or tap the link sent to your email address.

6

### Finish your profile

Enter your first and last name. Create a password and tap "Next" at the top right.

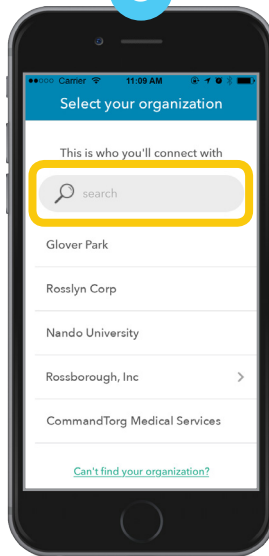

7

### Enable location

When prompted, enable "Allow Location Sharing" by tapping "Allow".

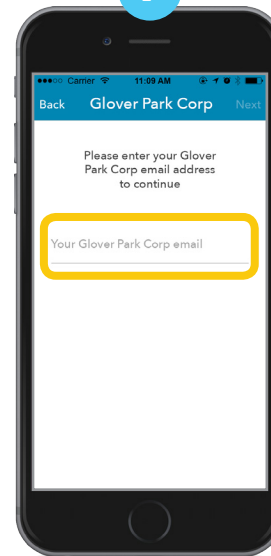

8

### Select organization

Search for and select your organization. If prompted, select your respective community. If you downloaded LiveSafe via a deeplink, you'll automatically be directed to your organization's instance of the app.

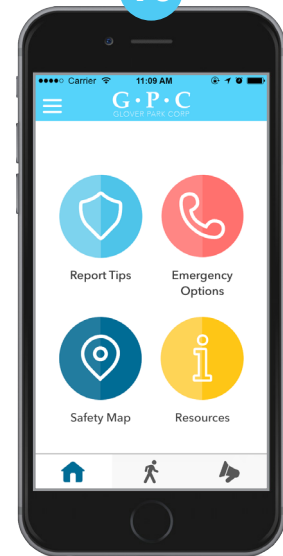

9

### Additional questions

If your organization has required an additional registration question, answer it.

10

### Welcome!

Allow permissions when prompted. You'll know you are in the right place when you see your organization's logo in the top banner.
