This is your Academic Evaluation! This is a great landing page to view your academic progress. You will notice your program information on the top left, your GPA and more program information just below, and to the right, your progress bar towards completion. To search for a course, you may scroll down to view your requirements by course blocks, and select the course you wish to view sections for. In this example, we will scroll down to Section 2, and select ENGL-004.

ENGL-004 Composition (1 Credits) Plan Course

English 4 helps students develop their skills in critical thinking and written communication, and it introduces them to information evaluation and research practices. Through the writing process, students engage in intellectual discovery and unravel complexities of thought. They read and write to examine their own and others' assumptions, investigate topics, and analyze arguments. With a focus on writing as a scaffolded process, the course is designed to prepare students for writing in Collegiate Seminar, the more advanced writing required in English 5, and college-level writing in general. This course requires the completion of at least 5,000 words of graded formal writing, and an additional 2,500 words of informal writing practice. A grade of at least C- is prerequisite to enrollment in English 5.
