Did You Know?

Left class without your cell phone? Dropped your keys somewhere? Many found items are turned into Public Safety, which maintains a Lost and Found. They have

McAfee President Pulls Back Curtain on Cyber Security

What are the cyber threats facing the world today? What can be done to protect against identity theft? Stolen credit card information at retailers? How can we secure the Cloud? McAfee president Michael DeCesare's address at the SEBA Executive Speaker Series [covered all this and more.](#)

Saint Mary's Students Advocate For Full Funding of Cal Grant

Three Saint Mary's freshmen joined hundreds of other Cal Grant students from California's private, non-profit sector to urge the California legislature to reject the automatic 11 percent cut in the Governor's proposed 2014-15 state budget. [Read more about](#)

[their trek from one legislative office to another to make the case.](#)

Lu'au Brings Island Feel to Campus

Large crowds filled the Soda Center for the Lu'au Cultural Night on March 6th. Transporting the audience to an island by way of food, atmosphere and performance, [the event was festive and filled with energy.](#)

Gaels: The Intersection of Chemistry and Art

collected everything from college IDs to laptops to, in one case, a “water bra.” Items not claimed within 90 days are donated to charity. If you’ve lost something, call 631-4282 to see if it has been turned in or visit the Public Safety office in Assumption Hall.

Do you have a little-known tidbit or story about Saint Mary’s? Send it to **Campus News**.

AstroNotes

Astronomers are uncertain of the cause, but for a few weeks around the Vernal Equinox (the first day of spring, March 20 at 9:57 A.M. PDT) it is a good time to see especially bright meteors, also known as “bolides” or *fireballs*. NASA says it’s **fireball season**—a time of year when bright meteors appear in greater number than usual. [See more](#).

Lasallian Reflections

For the week of **March 17**.

Michelle Shulman, chair of the Chemistry Department, takes a novel approach to teaching chemical instrumentation, using the chemical analysis of a Russian Icon fragment to teach students how to research, plan and conduct their experiments.

[Read more about this and other unusual approaches](#) Shulman uses to teach young chemists to confidently and competently collect and analyze data.

SMC in the News

Views: Pi Day Pics

Pi Day is an annual celebration on March 14 (3.14) of the mathematical constant pi. At Saint Mary's, students throw pi(es) at their science and math professors, who are generally very good sports about the whole thing. [See more photos](#).
