Professional Association Information

Professional associations can be a good resource for finding jobs and internships. Follow the links! Participating in associations can be a valuable avenue for learning about an occupation or field. Associations are an excellent resource for networking, and their websites often have information about careers.

- The Internet Public Library List of Associations
- Associations and Societies is a good way of finding professional associations online and can help to find internship/job postings for specialties or hard to find internships.
- American Society of Association Executives
- Yahoo! Professional Organizations

Here are just a few examples of associations.

Biology

- American Institute of Biological Sciences
- Association of Biomolecular Resource Facilities
