Student Learning Outcomes
B.A. in Justice, Community, & Leadership

- Engage in critical thinking through reading, writing, discussion, and service that synthesizes empirical and theoretical knowledge through breadth, depth, and integration of studies.
- Examine and address the social justice issues confronting our world through rigorous coursework and community engagement, and consider individual and collective responsibility for the common good.
- Articulate ideas and examine assumptions about faith, race, class, gender, sexuality, and other dimensions of diversity and difference.
- Demonstrate, through written and oral self-assessment and reflection, an understanding of the impact of their own academic learning experiences.
