

Sample Module for EDTL 600 and EDTL 700

Equity and Assessment Practices in the Classroom

Component I: LEARN

Watch all three of the videos E3 (Education, Excellence, and Equity) website. As you watch the segments, think about the essential skills our students need in order to be successful.

Component II: APPLY

Complete the TRANSLATION FROM CULTURAL RESILIENCY TO ACADEMIC & WORKFORCE READINESS SKILLS matrix found in the Documents section of Moodle. The examples that you provide should be specific to your classroom community and students.

Component III: RESPOND

Respond to the set of questions for each video segment (three sets of questions total). The video segment questions are found in the Documents section of Moodle. After completing the questions, please post your response to the following question on the Moodle Discussion Board: *In thinking about the educational system, what recommendations would you provide for policy-makers, educators, parents, and community members in order for students to thrive in a global society?*

Component IV: REFLECT

Read your classmates' posts and reflect on the insights provided. Then, respond to two classmates' postings. In your response, follow the guidelines for substantive posts included under Performance Expectations in this document. Your response should be at least 1-2 paragraphs in length. Do you agree with your classmates' recommendations? Why or why not?
