Gloria Sosa and Tracy Pascua Dea

Co-Directors and staff of the High Potential (HP) Program will assess effectiveness of the Summer Bridge Program, FYAC course structure, and program components by surveying FYAC faculty, current and past HP participants, and HP alumni. Student Learning Outcomes for the entire program will be developed; SLOs for the FYAC courses will be reviewed and updated if necessary. Focus groups made up of alumni and third and fourth year HP students will be employed to provide qualitative assessment of the above named components of the program. This proposed assessment plan represents a significant step toward comprehensive assessment of the HP program.
